CHIMES AT MIDNIGHT

50TH ANNIVERSARY RESTORED EDITION

<http://falstaffchimesatmidnight.com>

On the brink of Civil War, King Henry IV (John Gielgud) attempts to consolidate his reign while fretting with unease over his son's seeming neglect of his royal duties. Hal (Keith Baxter), the young Prince, openly consorts with Sir John Falstaff (Orson Welles) and his company of "Diana's foresters, Gentlemen of the shade, Minions of the moon". Hal's friendship with the fat knight substitutes for his estrangement from his father. Both Falstaff and the King are old and tired; both rely on Hal for comfort in their final years, while the young Prince, the future Henry V, nurtures his own ambitions.

Orson Welles considered *Chimes at Midnight* his personal favorite of all his films. Perhaps the most radical and groundbreaking of all Shakespeare adaptations, the film condenses the Bard's *Henriad* cycle into a single focused narrative. Its international cast comprises of Jeanne Moreau, Fernando Rey, Margaret Rutherford, and Ralph Richardson as the narrator, in addition to Welles and Gielgud. The film's harrowing war scenes have proven especially influential, cited in Kenneth Branagh's *Henry V* as well as Mel Gibson's *Braveheart*.

For the 50th anniversary edition of 'Chimes At Midnight', Mr Bongo presents the Filmoteca, Luciano Berriatúa restoration. This restoration has been undertaken with upmost respect for Welle's original vision for the movie. The work of the historian is not based on providing a quality of picture and sound according to the standard of current technologies (attempting to better what Welles filmed in the sixties), but to recover the film so that the viewer can watch the movie the same way they could watch it at the time. Berriatua said of his restoration; "For me the most important aspect of this restoration is to make a copy as accurate as possible to the original, with original photography. The most important thing is to play the grading, shadows and contrast selected by Welles. It is not a digital restoration in which the image is absolutely clean and no grains or problems. There is a stereo 5.1, is a mono sound, as of the time, "
